

## **DR. J.P. GIROUD AND DR. IAN D. PEGGS ANNOUNCE A STRATEGIC ALLIANCE BETWEEN THEIR INTERNATIONAL CONSULTING COMPANIES.**

After working together in the early years of GeoServices and GeoSyntec, Dr. J.P. Giroud and Dr. Ian D. Peggs have once again joined forces in a strategic alliance of JP GIROUD, INC and I-CORP INTERNATIONAL, Inc. This alliance will provide integrated international-level geosynthetic engineering consulting services, combining their complementary specialties of geotechnical and polymer engineering, respectively.

### **These services include:**

- Geosynthetic systems forensic/failure analysis and expert witness services for attorneys and insurance companies;
- Conceptual design, materials selection and specification services for consulting engineers;
- Design and specification peer review services for consulting engineers and insurance companies;
- Product evaluation and development services for manufacturers;
- Theoretical design and applied field practices;
- Technical support to help solve geosynthetic performance problems; and
- Research, workshops, seminars.

*Dr. Giroud and Dr. Peggs will help you correctly initiate your geosynthetic project or they will help you investigate and solve any performance problems.*
